## **Course Description**

A broad overview of subjects and ideas in geography, possibly the most internally diverse of the social sciences. Covers the geographical aspects of topics including weather and climate, landforms, population, culture, spatial interaction, politics, economics, cities, and much more. While students will be expected to understand the basics of each of the topics covered, the overarching emphasis will be on understanding the relationships among them. As such, the course builds from one topic to the next, ultimately stressing the sheer geographical complexity and wonder of modern life interacting with it.

This course fulfills the CUNY Common Core requirement on Individual and Society (Social Science) and Stage 2 (Broad Exposure) Group B (Social Science) of the General Education Requirement.

## **Learning Outcomes**

By the end of the course you should be able to:

1. define and describe the subfields and core concepts of geography.
2. know how to read maps and become familiar with geospatial technologies such as remote sensing and GIS.
3. have basic knowledge of plate tectonics, landforms, weather, and climates.
4. discuss the role of distance as an effect on human interaction.
5. understand the global patterns of population, cultural, political, urban, and economic processes.

## **Required Textbook**

A. Getis, M. Bjelland, and V. Getis, *Introduction to Geography*. McGraw Hill, 15th edition, 2017. ISBN 978-1259570001 (Paperback) or ISBN 978-1259936838 (E-Book).

## **Course Evaluation**

Grade will be based on the following Criteria:

Quiz	4%
Exam 1, Thursday, October 1 (date is subject to change)	30%
Exam 2, Monday, November 2 (date is subject to change)	30%
Exam 3, Thursday, Dec. 17 (11:00 am to 12:00 pm; different from regular class time)	30%
Class participation	6%

1. Students are strongly advised not to miss any exam. If a student has to miss one of the first two exams, a make-up exam will be available at the end of the semester: Thursday, Dec. 17, right after Exam 3. The make-up exam will cover all chapters tested in the first two exams and will be the same to those who either misses Exam 1 or Exam 2. No student is allowed more than one make-up exam.

2. The class is synchronous. Class attendance is mandatory. Students are responsible for obtaining any information presented in class during an absence.

3. The only students who will be eligible for CR/NC at the end of the semester are those who have completed all three exams.

4. No incomplete (IN) is given as a grade unless it is under the most extraordinary, and documented, circumstances. To request IN as a grade, you must contact the instructor before the last exam and complete a Contract to Resolve Incomplete Grades.
